Description

A spill kit contained in a durable polyethylene container with separate compartments consisting of a variety of absorbents for containment, absorption and cleanup of non-aggressive spills.

Application

The PIG[®] XL Response Cart is intended for contingency planning and quick response to emergency non-aggressive spills outdoors on shale, gravel and rough surfaces. The compartmentalized box allows for adding additional supplies and accessories and allows easy access to products when time is critical.

Features / Benefits

- Seamless polyethylene box with lockable lid — weather-resistant to protect absorbents from moisture, dirt and damage
- Compartmentalized for accessibility
- Four-way forklift entry
- 13 cm rubber wheels — push the kit right to the spill, even through doorways
- Great for contingency planning and emergency response
