Description

- European-sourced, post-consumer recycled cellulose is carefully blended, processed into pellets, and then crushed to create the optimum bulk density for absorbent performance
- Non-abrasive composition won't harm finished floors or damage expensive machinery
- Environmentally conscious recycled material reduces the amount of waste entering landfills. Ideal when "green" products are desired or required as part of your EMS
- Can be incinerated after use to reduce waste and to recover energy
- Absorbs and retains oils, coolants, solvents and water
- Lightweight 8kg bag is easy to handle

Recycled Content : 100% post consumer recycled cellulose
